CLAIRE DANES

PARTY TRICK #3
stay in THE RED

Nothing glamorizes the face faster than perfect crimson lips, says Claire Danes's makeup artist Marin Maulawizada. While a matte finish is dramatic, we love the idea of going high-wattage with a blinding coat of shine. To make your sheen last past three sips of a peppermint martini, layer different formulations of red, starting with a matte liner. After filling in your pout, top with velvety lipstick and tinted (not clear) gloss.

PARTY TRICK #4

Gild Your Lashes

Like the open-toe stiletto booties that reinvent your LBD, a colorful flutter can ignite your look in the blink of an eye. Pop on a pair of false lashes flecked with sparkle. (Just coat the backs of the lash strips with adhesive, then press each atop the roots of the upper lash lines.) Play down your pout and even out your skin to balance the effect, then bat seductively.

PARTY TRICK #5

tuck a choker INTO YOUR CHIGNON

If your simple go-to knot has come down with a serious case of the blahs, take a peek inside your jewelry box. Most necklaces or bracelets with a slim chain can be anchored into a hairstyle for instant impact. Michelle Dockery's stylist Mara Roszak recommends making a loose braid and then wrapping and pinning the plait into a bun. Tuck either end of a chain under the knot, and use bobby pins to fasten it against the scalp.
